## Cooper Colloquium Endowed Lecture

### SHALINI ARUNOGIRI

**Dr. Arunogiri** is Clinical Director at Turning Point, and Associate Professor at Monash University. She is inaugural director of the Hamilton Centre, a statewide centre for treatment, research and education in the integrated care of addiction and mental health. Her work focuses on innovative pharmacological and psychosocial treatments for addiction. She is completing a research fellowship in the treatment of trauma in people with substance use disorders, including the use of psychedelic-assisted psychotherapy.

### ***Integrated treatment for trauma and substance use in Australia: implementation opportunities and the role of psychedelic-assisted therapies***
